

ALVIAN PUTRA HARDIADI

Software Engineer - Mobile & Web | Applied AI

Yogyakarta, Indonesia | alvian.ok123@gmail.com | github.com/AlvianPh | linkedin.com/in/alvian-putra-hardiadi-b6647b254

PROFESSIONAL SUMMARY

Software Engineer building practical mobile and web applications with Flutter and Laravel, with a research background in Natural Language Processing (NLP) and applied machine learning.

ENGINEERING CAPABILITIES

Mobile: Flutter, Dart, Riverpod, Local Persistence (SQLite/Drift), REST API Integration

Web: Laravel, PHP, Blade, Tailwind CSS, MySQL, Alpine.js

Backend & Data: Supabase, PostgreSQL, Firebase, SQLite, RESTful API Design

Tools & Workflow: Git, GitHub, Postman, Android Studio, VS Code, Figma

Research / Applied AI: NLP, IndoBERT, Transformers, Active Learning, Python

SELECTED ENGINEERING PROJECTS

Arthawira - Personal Finance Mobile App (Flutter, Dart, Riverpod, SQLite, AI Assistant)

- * Built an offline-first mobile app for multi-wallet transaction tracking and budget forecasting.
- * Implemented local SQLite/Drift persistence and Riverpod reactive state management.
- * Integrated LLM-assisted transaction categorization and spending analytics.

Jawir Apps - Aksara Jawa Mobile Learning & AI Recognition (Flutter, Dart, REST API, CNN)

- * Engineered camera and gallery photo pipeline connecting to deep learning character recognition API.
- * Developed responsive UI and quiz module based on custom Figma design system.

Seulanga Kost Management - Rental Property Web Platform (Laravel, MySQL, Tailwind, Alpine.js)

- * Created room inventory tracking, tenant billing with automated WhatsApp notifications, and cash flow.

SIMPEG El-Rahma - Personnel & Document Web System (Laravel, PHP, MySQL, Tailwind)

- * Built and deployed centralized institutional employee record management system for STMIK El Rahma.

PROFESSIONAL EXPERIENCE

Coding & Artificial Intelligence Teacher - SMK Koperasi Yogyakarta (~1 Year Academic Cycle)

- * Taught 7 vocational classes (~140 students) fundamental programming logic and AI concepts.
- * Designed practical coding challenges aligned with national learning outcomes (CP).
- * Mentored students through debugging, error diagnosis, and hands-on project implementations.

RESEARCH & PUBLICATIONS

Multi-Oracle Active Learning Approach for Indonesian Sentiment Analysis using IndoBERT

- * Jurnal FAHMA (Sinta 4 Accredited Journal, 2024) | Extended paper accepted at ICERA 2024.
- * Evaluated active learning querying strategies to reduce human annotation costs with competitive F1 score.

EDUCATION

Bachelor of Informatics - STMIK El Rahma Yogyakarta (GPA: 3.95 / 4.00, 2022 - 2026)
